

# DESIREE VAN TOOR

METAPHYSICAL ASTROLOGER | INDEPENDENT RESEARCHER

## BRIEF INTRODUCTION

Desiree van Toor is an independent researcher and metaphysical astrologer specializing in the convergence of cosmology, archaeology, and astronomy. She dedicates her work to understanding the evolution of human consciousness and planetary laws, supported by more than twenty years of in-depth fieldwork on cosmic cycles and prehistoric civilizations worldwide.

## ENVIRONMENTAL BIOGRAPHY

Desiree van Toor approaches the questions of human evolution and cosmic consciousness with a rigorous, multidisciplinary methodology. As an independent researcher, she integrates findings from archaeology, astronomy, and metaphysical astrology to uncover patterns and laws that often remain underscrutinized in mainstream science. Her expertise is not based solely on theoretical frameworks, but on direct memory and in-depth empirical fieldwork.

Over the past two decades, her work has taken her to crucial archaeological and energetic hot spots, including Panama (Piedra Pintada), the Bosnian Pyramid Lines, Göbekli Tepe, Peru, Bolivia, and South Africa. Her insights into cosmic cycles, prehistoric technologies, and planetary laws (such as the influence of distant celestial bodies such as Sedna and Chiron) contribute to a fundamentally new paradigm within cosmology and philosophy of consciousness. Her publications are academically registered and catalogued under her international ORCID profile.

## ACADEMIC REGISTRATION & PUBLICATIONS

Research and hypotheses are officially registered in international academic databases: ORCID Identification: **0009-0005-7761-0477**

# RESEARCH AND MEDIA EXPERTISE

Desiree van Toor | Media Kit

## CENTRAL MEDIA TOPICS

### Cosmology & Archaeo-Astronomy

- Ancient civilizations: The technological and astronomical foundations of Atlantis, Lemuria, and prehistoric cultures.
- Megalithic Lines: Global Pyramid Lines, Göbekli Tepe and the Bosnian Pyramids as cosmic instruments.
- Star orientations: The relationship between prehistoric structures, Sirius and cosmic alignments.

### Consciousness Development & Metaphysics

- Cosmic cycles: The evolutionary transition of the human soul, seen from metaphysical astrology (Chiron, Sedna).
- Phenomena of consciousness: The laws behind direct memory, reincarnation, dreams, and double numbers.
- Sample structures: The metaphysical dynamics of flame and cosmic resonance.

### Empirical Field Research

- South and Middle America: Field Research in Piedra Pintada and Volcán Barú (Panama).
- South Africa: Research into the energetic and cosmic significance of the White Lions of Timbavati.
